Not illustrated. 1920 Excerpt: .above, and if properly constructed will give considerable increase in signals on the low waves. It should be shunted by a small switchVso that it may be cut out when using the larger transformer. V By means of the. two double-pole double-throw switches shown in the diagram, either of the couplers may be connected to the valve detector. This does away with the dead end effects that are particularly noticeable on the two hundred meter wavelengths. This set may not look so well as the cabinet type of short wave regenerative receivers on the market for amateur use, but if properly constructed it will give equal results. The appearance of this set can be increased considerably by mounting it on a panel except the tuning couplers which should be mounted on the operating table. The telephones can be any standard make such as the Brandes...
