Brand New Book ***** Print on Demand *****.Excerpt from Pass and Class: An Oxford Guide-Book Through the Courses of Literae Humaniores, Mathematics, Natural Science, and Law and Modern History The general object of the following pages will be, the writer hopes, sufficiently clear without explanation. He trusts that the first attempt which has yet been made to give a connected account of the whole course of Oxford education may be received with the indulgence which he feels it needs. The want of such a work for the use of Oxford Undergraduates has been long avowed. To meet that want is the chief aim of this attempt; but a straightforward description of the education given at the University seemed also desirable for an ulterior purpose. It was thought it might be useful at schools to those preparing for Oxford; - to parents, who naturally wish to know what sort of teaching modern Oxford proposes to give their sons; - to those of the general public who care to consider the subject either abstractedly or otherwise, and whose ideas, not previously very clear perhaps as to the meaning of the words University Education, have been in a chronic state of mystification ever since the introduction of the new system in 1850.
