Instructions for caregivers: The following questions are about how your child communicates and plays. The questions have to do with how your child communicates. You do not need to know the child's name, age, or sex. We would like you to fill this out when a caregiver or parent is present when you can observe your child and when the behavior that is being asked about is the behavior that you observe your child most often. If you are not sure of the answer, please leave the question blank. Children of your child's age are not necessarily expected to do the following things.
